All in-person attendees are required to complete a [brief health questionnaire](#) and provide proof of vaccination, before proceeding to the registration desk to receive their badge and other meeting materials. No one will be permitted in the meeting rooms without a badge, and the badge can only be obtained by having first been processed at the Health and Safety Desk.

**APC strongly recommends
mask-wearing in sessions,
when not speaking, eating, or drinking.**

PARTNERS

Coronis Health: www.coronishealth.com

Booth 16

Coronis Health provides sub-specialty revenue cycle management services enhanced with Ai4AR technology to provide greater insight into the underlying payor trends necessary for making the best business decisions for your group/department. By understanding and focusing on the nuances of each sub-specialty we can leverage resources across a large company environment and provide the boutique focus and attention our clients deserve.

American Society for Clinical Pathology: www.ascp.org

Booth 15

The ASCP unites more than 100,000 anatomic and clinical pathologists, residents and fellows, medical laboratory professionals, and students to advance laboratory medicine to better improve patient care through knowledge, collaboration and global community.

EXHIBITORS

American Association of Pathologists' Assistants: www.pathassist.org

Booth 14

The American Association of Pathologists' Assistants is dedicated to furthering the PA profession by providing members with targeted CE, professional support, and advocacy. Over 1800 certified and exam eligible members have met the highest standards for education and training in surgical and autopsy pathology, ensuring your pathology laboratory is meeting the standards of accreditation, licensing, and expectations of medical staff.

American Board of Pathology: www.abpath.org/index.php

Booth 2

The ABPath is the premier organization for certification and Continuing Certification (CC), of physicians in the specialty of pathology. Our mission is to serve the public and advance the profession of pathology by setting certification standards and promoting lifelong competency of pathologists. The ABPath offers certification Anatomic and/or Clinical Pathology and in 11 subspecialties.

AstraZeneca Precision Medicine: www.azprecisionmed.com

Booth 3

AstraZeneca Precision Medicine is dedicated to informing health care providers about biomarker testing to aid in patient treatment planning by providing the most appropriate resources.

Caris Life Sciences: www.CarisLifeSciences.com

Booth 8

Caris Life Sciences® is the leading molecular science and technology company developing and delivering innovative solutions to revolutionize healthcare and improve patient outcomes. Caris' suite of market-leading molecular profiling offerings assesses DNA, RNA and proteins, revealing a molecular blueprint helping physicians better detect, diagnose and treat patients. www.CarisLifeSciences.com

College of American Pathologists: www.cap.org

Booth 20

Training the next generation of pathologists is here and is a critical priority. The College of American Pathologists stands with you and continues to offer a broad array of services, programs, and support for residents and those who train them. The CAP serves patients, pathologists, and the public by fostering and advocating excellence in the practice of pathology and laboratory medicine worldwide. www.cap.org

EXHIBITORS

Corista: corista.com

Booth 6

Corista delivers an extensive digital toolbox for pathology providing integrated access to all image scanning systems, LIS/EHR platforms and 'best-of-breed' image analytics. Corista has also expanded its functionality to Research and Education applications. Specialists receive digital consults from across the globe, and researchers have a powerful platform upon which to develop and apply their algorithms. Corista: This is Integrated Pathology™.

Dolbey and Company: www.dolbeyspeech.com

Booth 4

Dolbey offers a suite of accurate and customizable speech recognition, dictation, transcription, digital recording, CAC, and CDI solutions with reliable support. We've been at the forefront of healthcare technology since 1914 and our healthcare solutions were ranked #1 by KLAS for CAC in 2017-2022 and Front-End Speech Recognition – Imaging in 2018, 2019, & 2021.

Elsevier: us.elsevierhealth.com

Booth 13

Elsevier is a world-leading provider of information solutions that enhance the performance of science, health, and technology professionals, empowering them to make better decisions, and deliver better care. Publisher of [Academic Pathology](https://academic.elsevier.com/pathology).

Eli Lilly & Company: www.lilly.com/disease-areas/cancer

Booth 12

For more than 50 years, Lilly has been dedicated to delivering life-changing medicines and support to people living with cancer and those who care for them. Lilly is determined to build on this heritage and continue making life better for all those affected by cancer around the world. To learn more about Lilly's commitment to people with cancer, please visit www.LillyOncology.com

Ibex Medical Analytics: www.ibex-ai.com

Booth 17

Ibex Medical Analytics is developing an AI-driven diagnostic system that helps pathologists deliver more efficient, metric-driven, objective and accurate diagnoses. It combines AI, data science, image analysis and machine learning technologies and applies them to cancer diagnostics in digital pathology, striving to improve patient outcomes and quality of life.

Inspirata: www.inspirata.com

Booth 18

Inspirata helps patients fighting cancer—and the clinicians they trust—to make every moment matter. Our comprehensive cancer informatics solutions bring disparate data together throughout the entire cancer care journey to drive informed decisions that improve survivorship. We combine leading digital pathology solutions with automated cancer registry solutions, comprehensive cancer informatics, and advanced patient engagement tools to bring users the broadest oncology informatics platform available globally.

Genentech: www.gene.com

Booth 7

At Genentech, we believe that comprehensive biomarker testing is critical to advancing personalized healthcare. Our goal is to provide patients with better care, leading to better health outcomes at lower costs. Biomarker testing is paramount to achieving this goal. The Biomarker Testing Team works to address the barriers that prevent patients from benefiting from the full potential of personalized healthcare. Which diagnosis should be made? How should the condition be treated? How should the treatment be monitored? Which medicine is most appropriate for the patient?

MorgueBoard: morgueboard.com

Booth 1

MorgueBoard™ is an electronic decedent tracking system built by a team with first-hand experience in hospital morgue operations and the inevitable risks and inefficiencies resulting from disjointed and unreliable processes. In addition to enforcing standardized workflow and ensuring strict compliance, MorgueBoard™ provides real-time, integrated insights and visibility into morgue operations anywhere and on any device.

EXHIBITORS

Paige: www.paige.ai

Booth 5

Paige product portfolio includes our FDA approved image viewer, FullFocus and FDA approved Paige Prostate AI with an extensive roadmap of other AI applications. Paige's mission is to use the incredible power of tissue-based AI to develop and deliver globally, a new generation of digital diagnostics and predictive tests, empowering pathologists and transforming oncology.

Seagen Inc: www.seagen.com

Booth 9

Seagen Inc. discovers, develops and commercializes novel medicines for cancer.

Sectra: medical.sectra.com

Booth 19

Sectra's Digital Pathology Solution provides pathologists with primary diagnostics to reduce report turnaround times while improving workload balance and supporting sub specialization. Allows for image review and reporting while also providing workload balancing, consultations, and second opinions.

CORPORATE WORKSHOPS

CLAIMING CME

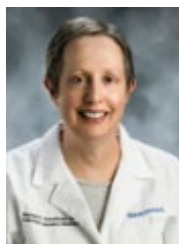

For meeting registrants who wish to claim CME credit for participating in the APC 2022 Annual Meeting, we are pleased to offer the [APC 2022 Online Learning Program](#), which includes most of the recorded presentations for the APC 2022 Annual Meeting. As a meeting registrant, you are automatically enrolled in the APC 2022 Online Learning Program. Access the APC 2022 Online Learning Program package and claim CME credits as you view the modules in the APC Learning Center. Learning content is separated by topical theme. You will receive credit for a given topic by viewing all the recordings in that grouping, completing the evaluation for each module, and then submitting a final CME Assessment. Submit claims for CME through March 31, 2023. More information and alternative access to the APC 2022 Online Learning Program can be found at: www.apcprods.org/APC2022-OnlineLearningProgram.

INVEST IN THE PIPELINE OF ACADEMIC PATHOLOGY!

The APC has established the **Society of '67** to support programs that foster the development of academic pathology and future leaders in academic practice, education, and research. The Society's name honors the founding of the APC, which occurred in 1967.

DONATE TODAY at: www.apcprods.org/societyof67
