Association of Pathology Chairs "Promoting Excellence in Academic Pathology"

APC Mission Statement

The Association of Pathology Chairs serves as a voice of academic pathology. The mission of the APC is to provide leadership and to advocate for the dynamic discipline of pathology. The APC provides education, training, information resources and networking opportunities for Chairs, residency program directors, graduate student program directors and department administrators.

Continuing Medical Education (CME) Information

The Federation of American Societies for Experimental Biology (FASEB) is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

Category I Continuing Medical Education (CME) credits will be offered at this meeting. CME application forms will be available at the Registration Desk or at the APC Office. For the purpose of earning Continuing Medical Education credits toward the American Medical Association Physician's Recognition Award, the Association of Pathology Chairs 2007 Annual Meeting is jointly sponsored by the Federation of American Societies for Experimental Biology. All registrants of the meeting who apply for CME credit must pay a \$50 application fee to the Association of Pathology Chairs. **Applications must be turned in at the meeting to APC staff, or received in the APC Office by September 4, 2007.**

Meeting Objective/Target Audience

Participants will gain insights into new modes of educating medical students and residents in pathology, teaching pathology in a multi-disciplinary environment, and the importance of research and basic science in the pathology curriculum. The target audience includes professionals (MD, PhD, or MBA) who serve as the academic, medical, scientific and administrative leaders of departments of pathology in the United States and Canada.

Speaker and Author Disclosures

The Association of Pathology Chairs (APC) and The Federation of American Societies for Experimental Biology (FASEB) require that audiences at educational programs sponsored by APC and FASEB be informed of a presenter's (speakers, faculty, authors, contributors) academic and professional affiliations, and the disclosure of the existence of any significant financial interest or other relations a presenter has with the manufacturer(s) of any commercial products(s) discussed in an educational presentation. This policy allows the listener/attendee to be fully knowledgeable in evaluating the information being presented.

Presenters were asked to disclose any relationship that may bias one's presentation or which, if known, could give the perception of bias. These situations may include, but are not limited to: 1) stock options or bond holdings in a for-profit corporation or self-directed pension plan; 2) research grants; 3) employment (full or part-time); 4) ownership or partnership; 5) consulting fees or other remuneration; 6) non-remunerative positions of influence such as officer, board member, trustee, or public spokesperson; 7) receipt of royalties; 8) speakers bureau; or 9) other.

Exhibitors and Sponsors

American Society for Clinical Pathology (ASCP)

The American Society for Clinical Pathology is a not-for-profit medical society organized exclusively for educational, scientific, and charitable purposes. ASCP's membership consists of 11,000 pathologists, other physicians and more than 129,000 laboratory professionals. Long recognized as the premier provider of continuing medical education activities for pathologists and laboratory professionals, the ASCP does approximately 400 workshops, symposia, teleconferences and self-study programs annually. In addition, the ASCP Press is an award winning medical publisher of textbooks, reference manuals, slide atlases and audiovisual materials. The Society also publishes two prestigious journals, The American Journal of Clinical Pathology and Laboratory Medicine.

Aperio Technologies

Aperio is digitizing pathology. We provide systems and services for digital pathology, which is a digital environment for the management and interpretation of pathology information that originates with a digital slide. Aperio's award-winning ScanScope slide scanning systems and Spectrum™ digital pathology information management software improve the efficiency and quality of pathology services for pathologists and other professionals. Applications include education, remote viewing, archival and retrieval, basic research, and image analysis.

Bacus Laboratories

A simple and complete Virtual Microscopy Program is what you receive when united with Bacus Labs! Virtual Microscopy for education replaces glass slide collections and microscopes, with our cost effective Virtual WebSlides. Being network based, students can access virtual slides from home, a wireless café, and in the classroom. Faculty will enjoy how easy it is to customize Virtual Slides and fit them into their curriculum with our WebSlide Server Software. Customers also have unlimited access to our comprehensive WebSlide collection of over 2500 slides. Partner our WebSlide Server Software, an Internet Browser, and our WebSlide collection for a total solution!

ICPI

The Intersociety Council for Pathology Information (ICPI) is a nonprofit educational organization sponsored by national pathology societies to serve as a central source of information about pathology in the practice of medicine and in medical research and education. ICPI publishes The Directory of Pathology Training Programs each year, listing pathology residency programs and pathology fellowship programs. ICPI also publishes the brochure "Pathology as a Career in Medicine."

IMPAC Medical Systems

IMPAC PowerPath, IMPAC's laboratory information management system for anatomic pathology, streamlines workflow and daily operations for laboratories offering surgical pathology, cytology, dermatopathology, and autopsy services. With more than 400 installations worldwide, PowerPath offers unmatched performance in managing anatomic pathology laboratories in hospitals, medical centers, reference labs, and academic facilities.

Evaluation Form

Evaluate each component of the program as to how successfully it met the stated educational objectives of the meeting (1= poorly met, 2= partially met; 3= fully met; 4= exceeded expectations).

Educational Objectives: To enhance understanding of the issues facing the profession of pathology, including the changing technological landscape and how to adapt to those changes; the changes in the teaching of pathology to future physicians; and the need to advance scholarly effort in the practice of medicine. To expand the network of contacts that can help participants meet the responsibilities they face.

If applying for CME credit:

- **You MUST submit this Evaluation Form (you MUST include your name on this form) with your CME Application and payment of \$50. Pick up an Application form at the APC Registration desk.**
- The maximum Category I CME credits (in hours) permitted for each component is listed in the column to the right of the description of the session. Claim only those hours for which you were in attendance in the column marked “# Hrs Attended.”
- You may leave your completed CME Application at the registration desk by noon on Saturday or you can mail it to the APC Office by September 4, 2007.
- On the front of the CME Application, remember to sign and date the application, and to provide your email, phone and fax information in case there is a question about your application. Fill in the box in the lower left corner with your full name and complete mailing address so that your CME certificate can be mailed to you.
- Transfer the Total CME Hrs Attended from the last page of this Evaluation Form to page 2 of the CME Application so that the correct number of CME hours can be applied.

Mechanisms of Disease***[®]

**Volume 2, February 2007
Available Online and in Print**

Annual Review of Pathology: Mechanisms of Disease covers the significant advances in our understanding of the initiation and progression of important human diseases. Emphasis is placed on current and evolving concepts of disease pathogenesis, molecular genetic and morphologic alterations associated with diseases, and clinical significance. Each volume of the series includes discussion of diverse disorders, which may fall into the broad categories of cell injury, inflammation, and cancer.
